

## **WATER/WASTEWATER TREATMENT PLANT OPERATOR – PART TIME**

---

Environmental Systems Service, Ltd. (ESS) is an environmental services firm located in Culpeper, Virginia. ESS has been a leader in water & wastewater treatment operations and maintenance for over 52 years. The company also maintains a state certified environmental laboratory, which supports our Environmental Services Division, as well as performing water, wastewater, and soil testing from outside clients.

**ESS is seeking a part-time, Wastewater Treatment Plant Operator in Luray, VA. Minimum of a Virginia Class IV Wastewater license or higher is required. Weekend work is required and may include some weekdays; with some flexibility in scheduling. Job responsibilities include the monitoring and adjustment of process control equipment, on-site testing, sample collection, maintaining records of monitoring information and routine maintenance.**

Salary is based on several factors, including experience, and is evaluated on an individual basis after an application has been submitted.

Applications may be obtained online at [www.ess-services.com](http://www.ess-services.com) and sent with your resume, including references, to [info@ess-services.com](mailto:info@ess-services.com) or faxed to Human Resources at (540) 825-4961. Should you have any additional questions, please feel free to call Human Resources at (540) 825-6660.

*Equal Opportunity Employer*
